

My Trip to the Doctor

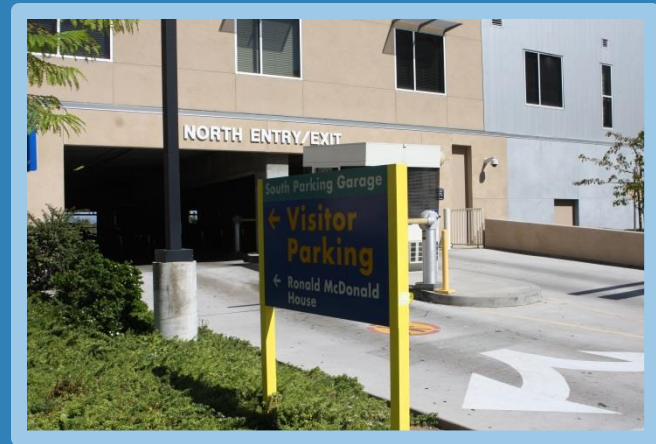

Rady Children's

I am going to see the doctor.

First we will park the car.

The big white doors will open so we can walk in.

There will be a desk with lots of colors and bright lights.

I can stand on the feet while I wait.

I can look at the fish tank while I wait.

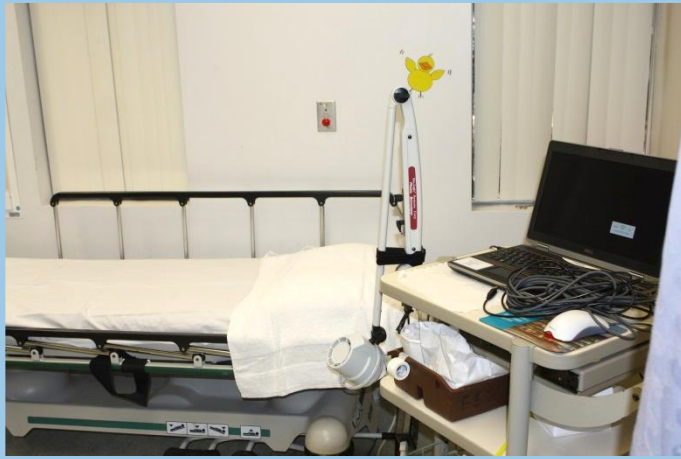

We will check in so they know I am here.

We will walk down long hallways together. I will not be alone.

When I get to my room there will be a bed and a computer.

The nurse will show me cool rainbow wires before we start. I can touch them if I want!

The nurse will let me play with a pinwheel before we start!

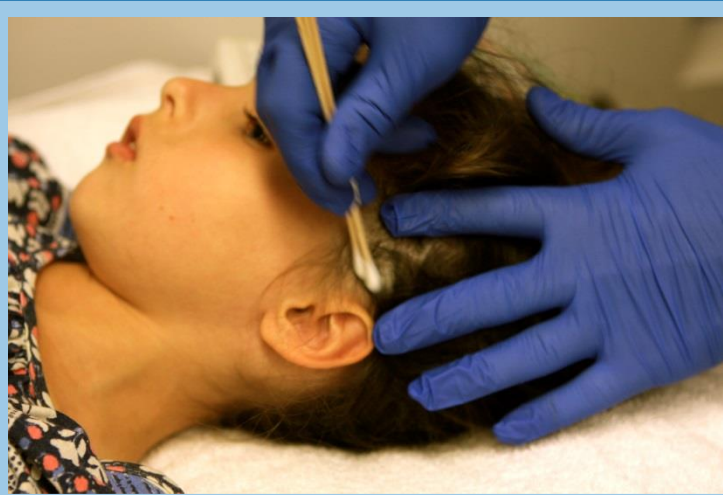

We can pretend the wires are scoops to dip in a bowl of ice cream!

When it's time to lay down I can hold the pinwheel.

The nurse will squeeze some stuff onto a towel by my head.

The nurse will be gentle and put the jelly on my hair.

Then the nurse will scoop the "ice cream" out while I lay down and relax.

My job is lay still while the nurse puts jelly on my hair.

The nurse will put the ice cream scoops on my head while I look at my toy.

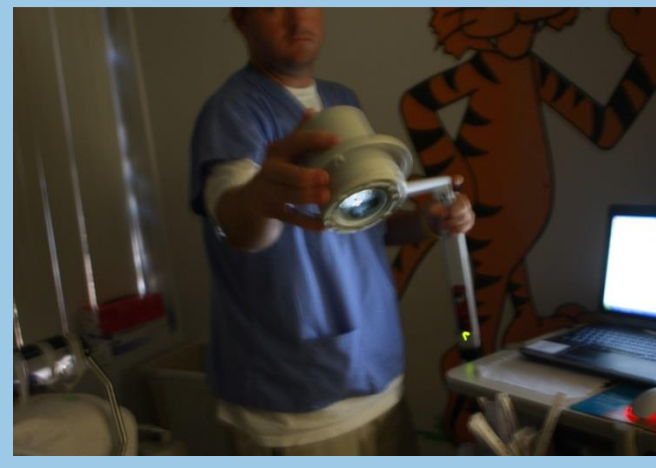

It tickles and makes kids smile when they get ice cream scoops on their head!

The nurse will wrap my head with gauze to make sure my wires don't fall off.

I get to relax and blow the pinwheel.

Next the nurse will turn on a flashing light! It looks cool and helps them make sure I am not sick.

The nurse is nice and will help me take the ice cream scoops off when I am done.

They will wash my hair and wrap it to keep me warm!

Sometimes the doctor has stickers for doing a good job!

There is a McDonald's by the doctor's office that I can visit after my appointment.

There is a gift shop that I can visit after my visit.

Then it will be time to go back to the car and go home!
